CSA MEMBER COMPANIES

WHO WE ARE

The Chamber of Shipping of America (CSA) represents U.S. based companies that own, operate or charter ocean-going tank, container, roll on/roll off, special purpose, or dry bulk vessels engaged in the domestic and/or international trades. Current members include companies that own, operate or charter U.S. flag or non-U.S. flag vessels.

CSA is active in representing its members before the U.S. Congress and administrative agencies such as the U.S. Coast Guard, U.S. Environmental Protection Agency, U.S. Department of State, and U.S. Customs and Border Protection. CSA sits on the International Chamber of Shipping delegation to the International Maritime Organization in London. CSA is also the U.S. shipowner representative to the International Labor Organization.

Two categories of membership in CSA are available. Full membership is open to any company that has substantial presence in the U.S. and owns, operates or charters vessels. Associate membership is open to companies who are not qualified for full membership yet have an interest in one or more of the issues addressed by the organization on behalf of our full members.

For membership inquiries, please contact Sean Kline at SKline@CSAShipping.org.

VISION

Our vision is to be recognized as the primary organization representing owners, operators, and charterers of U.S. and foreign flag vessels, before U.S. and international entities.

MISSION

Our mission is to represent members' interests regarding U.S. and international legislative, regulatory, and administrative entities.

STRATEGY

Our strategy primarily uses education, engagement, collaboration, and alignment. We act as a professional organization to engage with other industry associations.

BLUE ACTION MOL

To the future, with our ‘Ocean Planet.’

The sea occupies 71.1% of the earth’s surface.
It connects countries around the globe and has given rise
to economic activities that have become
the foundation of humankind’s development.
The earth’s very potential lies in its oceans.
Our home is indeed an “ocean planet.”

If you look at the world from an ocean perspective,
you can see a completely different future.
As a company that has always moved forward with the sea,
Mitsui O.S.K. Lines (MOL) believe its potential more than anyone.
As a Group, our mission is to draw forth this immense value
shared by humankind and create sustainable growth for societies.

Now is the time for us to think and act outside the box.
MOL will utilize the knowledge we have gained through shipping
to expand the field to social infrastructure companies that originate from the oceans.
When opportunity presents itself, we should take full advantage of it.
Let’s build new hope for tomorrow, together.
